---

### TECHNICAL SKILLS :

- **Frontend Development** : Angular, Ionic, HTML5, CSS3, JavaScript, TypeScript, SCSS, Firebase, Responsive design
- **State Management & API Integration** : RxJS, Firebase, RESTful APIs, Postman
- **UI/UX & Animations**: GSAP, UI/UX Design Principles, Color Theory, Web Optimization
- **Version Control & Collaboration** :Git, Bitbucket, SourceTree, JIRA, Slack

SOFT SKILLS : Problem-solving | Collaboration | Attention to Detail | Adaptability

## EXPERIENCE

---

FRONTEND DEVELOPER | SAIHA SOFTWARE TECHNOLOGIES PVT LTD

Nov 2022 - Aug 2024  
kochi, kerala, India

- Developed **role-based authentication and secure login systems** for an **Insurance & Pension Portal**, improving data security and user access control.
- Designed & implemented an **Employer Portal for company registration and financial data submission**, improving **verification speed and accuracy**.
- Created an **Admin Dashboard for monitoring companies and employees**, streamlining verification and data management.
- **Secured** user data by implementing **token-based authentication** for login and signup processes, ensuring **robust protection** against **security breaches**.
- Improved **mobile responsiveness** across web applications, resulting in **increased mobile traffic and engagement**.
- Enhanced UI with **GSAP animations** for smoother, more engaging **user interactions**.
- **Streamlined** data management for **admin users** by developing **intuitive dashboards**, improving **task completion time** and enhancing overall **user experience**.

## PORTFOLIO PROJECT

---

FRONTEND UI & ANIMATION SHOWCASE (Personal Project)

[LIVE DEMO](#)

- Developed frontend UI with HTML, CSS, GSAP animations.
- Implemented smooth UI transitions for better user interaction.

Additional work samples available upon request.
