OBJECTIVE

Frontend Developer specializing in Angular, RxJS, and responsive UI/UX design, with experience in building scalable web applications, admin portals, and dashboards. Passionate about delivering user-friendly, performant interfaces while leveraging state management, animations, and API integration.

EXPERIENCE

FRONTEND DEVELOPER | SAIHA SOFTWARE TECHNOLOGIES PVT LTD

Nov 2022 - Aug 2024
kochi, kerala, India

- Built and maintained multiple responsive **web applications** using **Angular**, delivering intuitive UIs for insurance, pension, lead management, and internal dashboards.
- Developed **role-based authentication and secure login systems** for an **Insurance & Pension Portal**, improving data security and user access control.
- Implemented **role-based authentication, token-based login, and secure data handling,** ensuring user and company information remained protected.
- Designed and developed **dashboards and admin portals**, streamlining workflows for data verification, report generation, and system monitoring.
- Improved **mobile responsiveness and UI consistency** across web platforms, resulting in higher accessibility and user engagement.
- Collaborated closely with teams to integrate **APIs, reactive forms, and real-time data streams (RxJS)**, enhancing application performance and reducing errors.
- Contributed to **drag-and-drop, multi-select, and file management features**, improving usability and aligning with modern web app standards.

PROJECTS

HAULEER WHEELS - *ONLINE TRUCK BOOKING MOBILE APP*

- Built a **mobile-first** truck booking interface using **Ionic Framework**, optimized for on-the-go usability.
- Developed detailed **user profiles** and **shipment history views**, improving clarity and tracking for both customers and drivers.
- Incorporated **real-time status updates** and **push notifications** to enhance communication and delivery transparency.
- Styled with **Bootstrap** and Ionic's components for a consistent, **responsive UI across devices**.

SEEKERPRO - *PROJECT & TASK MANAGEMENT WEB APP*

- Developer **dashboards using HTML, CSS, and Bootstrap** to manage tasks, projects, and user activities.
- Implemented **notification features for seamless updates** on project status and responsibilities.
- Focused on clean UI structure for improved usability and clear data presentation.

CCPS - *INSURANCE & PENSION MANAGEMENT PORTAL*

- Built a platform using **Angular, RxJS, and Bootstrap** to help companies **manage employee insurance and pension contributions**.
- Enabled **automated generation of quarterly reports**, streamlining financial tracking and administrative tasks.
- Used reactive programming via **RxJS to manage real-time data updates** and improve responsiveness.

TRANZCARS - *CAR RENTAL WEB APP*

- Created a self-drive **car rental website UI using HTML and SCSS**, emphasizing easy browsing and booking workflows.
- Created **responsive page layouts** to ensure **smooth viewing on both desktop and mobile devices**.
- **Collaborated closely with designers** to ensure the UI matched the intended **user experience and visual details** precisely.

ARCHITECTURE - *PERSONAL PROJECT*

- Developed a **clean, minimalist web portfolio** for architectural works using **HTML, JavaScript, and GSAP**.
- **Enhanced visual storytelling** with smooth **GSAP-powered micro-animations**, creating **engaging viewing transitions.**
- **Optimized** HTML, CSS, and **image assets** for maintainability, **faster load times**, and ease of **future enhancements.**

SKILLS

TECHNICAL SKILLS :

- **Frontend Development** : Angular, Ionic, HTML5, CSS3, JavaScript, TypeScript, SCSS, Tailwind, Firebase, Responsive design
- **State Management & API Integration** : RxJS, Firebase, RESTful APIs, Postman
- **UI/UX & Animations** : GSAP, UI/UX Design Principles, Color Theory, Web Optimization
- **Version Control & Collaboration** : Git, Bitbucket, SourceTree, JIRA, Slack

SOFT SKILLS :

- **Problem-solving** : Skilled at identifying issues quickly and creating effective, practical solutions.
- **Communication** : Proficient in written and verbal communication, capable of explaining
- technical concepts effectively.
- **Attention to Detail** : Ensure accuracy and quality by carefully reviewing every aspect of work.
- **Adaptability** : Easily adjust to new challenges, technologies, and environments to maintain productivity.
- **Team Work :** Work effectively with diverse teams, contributing ideas and supporting others to achieve shared success.

LANGUAGE

English : Professional working proficiency

Malayalam : Native proficiency

Hindi : Elementary proficiency

Tamil : Conversational proficiency

EDUCATION

Bachelor of engineering in Computer Science   2017
PSN engineering college(Anna University)   *Tamil Nadu, India*

Higher Secondary in Biology Science   2013
Kerala HSE Board: HSS for Boys   *Kerala, India*

High School   2011
Kerala Board Of Public Examinations   *Kerala, India*

PORTFOLIO

Showcases real-world projects, personal projects including dashboards, portals, and responsive UI and

GSAP animations   *View Portfolio*

LICENSES & CERTIFICATIONS

- The Complete App Design Course - UI, UX, Design Thinking - London App Brewery. - *certificate*
- Figma UI UX Design Essentials. *certificate*
